

Niagara Falls School District/Mary C. Dyster Center for Young Parents
Youth Employment Program

“Nexter Employment”

Nexter Employment is employment for the next generation. Youth we currently work are the workforce of the future, and need education and training to make a smooth transition from the “Nexter Generation” to the “Now Generation”. If you are interested in our program, CYP will offer assistance with work readiness skills, applications and resumes, and obtaining employment. As young parents, you will be given help in arranging childcare and finding the resources to pay for it. Students stay in school or enroll in GED classes, so they can move up the career ladder of their choice. CYP can help you be more competitive and “ahead of the game” in your job search, by offering to pay your wages during the training period at a work site. After that, it’s up to you to make a good impression so the employer will hire you as a regular employee. The jobs we have available are entry level-- they are for people just starting out. Maybe you need a job with flexible hours to accommodate your school schedule, we have that. Maybe you are done with school and want to learn a trade; we can help with that, also. Call CYP today and begin moving from “Next” to “Now”.
